with fine spray mist
- **30 litre water tank**
up to 8 hours operation
- **8 speed settings**
with adjustable fog volume
- **Swivelling function**
for even distribution
of air and mist
- **Sturdy construction**
Heavy round base
with 5 castors
- **5 metal wings**
with protective grille

The 66 cm mist pedestal fan provides immediately noticeable freshness in large rooms, halls or on terraces. Whether for events, catering, warehouses or private outdoor areas - this fan provides reliable cooling wherever it is needed.

With its large 30-litre water tank, the fan can generate spray mist for up to 8 hours without interruption, allowing continuous operation without refilling. Thanks to 8 speed levels and adjustable mist volume, the device can be perfectly adapted to different requirements and room sizes. The oscillation function ensures that air and mist are distributed evenly, while air cooling and humidification can be operated separately or simultaneously.

The fan can be operated either directly on the device or conveniently via the remote control. For maximum stability, the fan has a heavy round base and five castors that ensure mobility and stability at the same time. Metal blades with protective grille ensure additional safety and long-lasting use.

With its modern design and combination of high performance, mobility and ease of use, the 66 cm mist standing fan is the ideal solution for providing pleasant freshness on hot days.

- 2 years

Specifications:

- Diameter: 66 cm
- Voltage: AC 220-240V, 50/60Hz
- Power: 170 W
- Motor: DC motor, quiet and durable
- 8 speed settings
- Digital display
- Adjustable fog quantity
- Swivelling function
- Water tank: 30 litres, up to 8 hours of operation
- Air circulation: 184m³/min.
- Speed up to 1000 rpm
- 5 metal blades with protective grille
- Heavy round base for stability
- 5 castors
- Remote control: Up to 5 m range
- Spray mist function and fan function can be used separately or together

Dimensions:

- Product (W×H×D): 680×1750×680 mm
- Packaging in 2 parts (W×H×D): VP1: 680×680×260 mm / VP2: 1000×545/265×375 mm
- Net/gross weight: 20.1 kg / 12.7+10.8 kg
