Tank can be conveniently filled from above
- **Versatile in use**
Ideal for living room, office or terrace
- **Sturdy round base with 5 castors**
for easy transport

The standing spray mist fan combines powerful air circulation with refreshing mist cooling and thus ensures pleasant freshness even on hot summer days. The combination of fan and humidification creates a pleasant and comfortable room climate - ideal for living rooms, offices or patios.

Thanks to the large 2.8 litre water tank, the spray mist can be used continuously for up to 8 hours. The tank can be conveniently filled from above, making it particularly easy to use. The mist intensity, fan speed and air modes can be individually adjusted as required - from refreshing normal mode to sleep mode for the night.

The fan offers 3 speed levels and a swivelling function that distributes the air evenly throughout the room. With the practical remote control, you can control the device conveniently from a distance and enjoy maximum ease of use.
