

## Highlights

- **Cordless operation** thanks to powerful rechargeable battery
- **Foldable design** for easy storage and transport
- **3 speed settings** for individual comfort
- **Quiet operation** with only approx. 40 dB(A)
- **Robust ABS material** for durability and stability
- **Extendable telescopic pole** reaches a height of up to 80 cm

## Lieferumfang

- Folding fan
- Operating instructions

## Garantiezeit

- 2 years

The versatile folding fan is foldable, easy to transport and can be used both as a table-top unit and as a free-standing unit. It ensures pleasant air movement at all times and reliably circulates the air in the room.

Thanks to the integrated rechargeable battery, cordless operation is possible - ideal for at home, in the office, in the garden or when travelling.

With three adjustable speed levels, the air circulation can be customised, while the quiet operation of around 40 dB hardly disturbs even in quiet environments.

When the fan is no longer needed, it can simply be folded up again, saving space and making it easy to transport or use elsewhere.

Made of robust ABS material, the fan offers stability and durability. The extendable pole can be lengthened up to 80 cm so that it can be used flexibly as a stand-alone device.

## Specifications:

- Power: 5W
- Input: 5VDC / 1A
- Height with telescopic pole extended: 80cm
- Battery type / capacity: Li-Ion (18650) / 2×1200mAh, 3.7V
- Operating time with battery: 5-6 hours
- Charging time: approx. 5 hours
- 3 speed levels
- Wind speed: approx. 3.0 m/s
- Noise level: approx. 40 dB(A) (at a distance of 1 metre)
- Compact and foldable for easy transport
- Colour: white

## Dimensions: white

- Product (W×H×D): 210×100-800×208 mm
- Packaging (W×H×D): 220×220×110 mm
- Net/gross weight: 1.1 kg / 1.4 kg
