BE COOL NX1-LITE - More riding fun on every journey

Experience the perfect combination of performance, style and comfort on your daily commute through the city. With an output of 350 watts, the NX1-LITE takes you effortlessly to any destination, while the impressive range of up to 25 km* ensures that you can master the day in a relaxed manner.

The 7.5 Ah 36 V lithium-ion battery ensures a reliable power supply. With 270 watt hours of energy and an innovative energy recovery system, the NX1-LITE is not only powerful, but also environmentally friendly.

Safety first: The scooter is equipped with a rear disc brake, an electric brake at the front and a modern LED lighting system with front and rear lights and indicators. So you are safe on the road day and night.

Choose from 4 speed levels to suit your riding style and effortlessly reach a top speed of 25 km/h. The 8.5-inch Honeycomb tyres not only offer a comfortable ride, but also excellent grip on a wide variety of surfaces. With a maximum load capacity of 120 kg, the NX1-LITE is a reliable companion for any rider.

The practical app integration allows you to conveniently control your scooter, monitor the battery status and optimise your rides. An integrated bell also ensures safety on the road.

Unleash the freedom of mobility with the NX1-LITE - your perfect companion for smart, fast and sustainable mobility!

Bright display and headlights at any time of day

The bright LCD display informs you about the battery status and speed at all times. You can conveniently adjust all settings using the button control - from the speed level to the LED lighting.

Safety & comfort

The 8.5" honeycomb tyres ensure outstanding riding comfort and glide effortlessly over bumps. Even nails and broken glass are no problem, so you can always travel safely and worry-free. The NX1-LITE is also equipped with a disc brake on the rear wheel and an electric brake on the front wheel - for maximum control on every ride.

Weatherproof

Rain or shine, your path remains untouched. Our e-scooter redefines weatherproofing, with carefully optimised electrical components - from the intuitive display and precise controller to the robust battery and powerful motor. These electrical components are specially designed to withstand moisture and wet conditions, so you can travel safely and worry-free in any weather.

Specifications:

- Motor power: 350 watts
- Maximum range: 25 km*
- Battery type: 7.5 Ah, 36 V lithium-ion
- Watt hours: 270 Wh
- Rear disc brake, electric front brake
- Energy recovery system
- 4 speed levels
- Maximum speed: 25 km/h
- 8.5 inch Honeycomb tyres
- LED front light, LED rear light, indicators
- Gradient: 10%
- LCD display
- Bell
- App (via Bluetooth)
- Maximum load capacity: 120 kg
- Weatherproof
- Protection class: IPX5 (electrical components IPX7)
- Charging time: 5 hours
- Charger: Input AC 100-240V~50-60Hz / Output DC 42V/1.5A

Dimensions:

- Product (L×W×H): 1100×485×1215 mm
- Product folded (L×W×H): 1100×485×475 mm
- Packaging (L×W×H): 1155×180×535 mm
- Net/gross weight: 14.95 kg / 19 kg

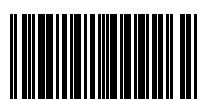

Test variables for the range:

Person: 70 kg, Weather: dry, 25 °C and no wind, continuous speed of 15 km/h, Track conditions: flat, smooth tarmac

* The actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.
