

## Properties

- Convector
- 2000 Watts
- Two heating stages
- Temperature control 5-40C
- Touch Control
- Timer function

## Security

- tested & certified
- Anti-tilt protection
- Overheat protection
- Glass

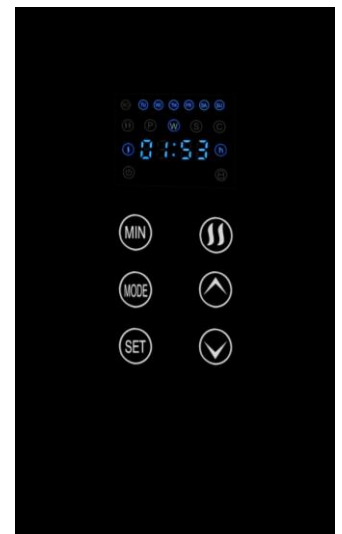

- A powerful 2,000 W heating output ensures clean, condensation-free and odorless heat - the SHE glass convector is a real expert in reliable heat control.
- The SHE convector impresses with its energy efficiency – the device has a saving mode that is activated as soon as the desired temperature is "I'm not here."
- With all its power, protection is in the foreground, which is why it has overheating protection and the front surface is made of insensitive safety glass.
- The glass convector convinces with its easy operation – The device has an integrated touch panel and is thus easy to use.

The strong heating performance of the convector can be regulated in two different stages. 1,000 and 2,000 watts are available for selection and for energy-efficient operation, the performance is reduced when the target is achieved.

Easy operation is possible via the touch panel integrated in the safety glass. You can set a target temperature value between 5 and 40 °C for thermostat-controlled automatic operation. The thermostat implements your target and regulates the heating power independently and energy-efficiently up to the automatic switch-off.

In addition to the touch display, all functions and settings can also be conveniently controlled with the included remote control, making operation even more intuitive and faster.

## Technical data

### Security

Safety is a top priority at SHE. The convector is equipped with an overheat protection, in addition a thermal fuse and a tipping protection is installed. In this way, risks are prevented from the outset.

The convector of SHE can be used universally as a stand with supplied feet or it is also suitable for wall mounting with the accessories included in the scope of delivery.

- Heating capacity: 2000 watts
- 2 heating stages: 1000, 2000 watts
- Heating range from: 5C° - 40C° adjustable
- LED display temperature display for room and target temperature
- Multiple on and off timers
- programmable at the same time - by hour, day and week
- Touch Control
- Electric thermostat
- Remote control incl. batteries (CR 2025)
- Pre-tensioned safety glass
- IP24 -Protection against splashing water, ideal for wet rooms
- Overheat protection
- Stand unit or wall mounting Possible
- Accessories for wall mounting included in delivery
- Scope of delivery: Remote control incl. batteries (CR 2025)  
8 screws (12x4 mm); 4 screws (35x4 mm); 4 dowels (35 mm)  
Instruction manual; 1.5 m power cable
- Product dimensions: 920 x 430 x 240 mm
- Weight 7400g

### Scope of Delivery & Warranty

Remote control incl. battery

8 screws

User Manual ( English )

Warranty: 2 years
