for reliable air purification

Lieferumfang

- Tower fan
- Remote control
- HEPA13 filter
- Operating instructions

Garantiezeit

- 2 years

With its special, rotorless design, the **AuraSilk** tower fan ensures pleasantly fresh air in the room. The air flow is even and very gentle - ideal if you want noticeable refreshment without annoying draughts or loud noises.

The energy-efficient **DC motor with 55 W** offers enough power for everyday use and works quietly and economically. With **12 speed settings**, you can adjust the strength of the air flow exactly how you like it - from a gentle breeze to powerful cooling. The **automatic swivelling function** distributes the air evenly throughout the room so that not just one corner benefits.

The robust housing made of **high-quality ABS plastic** blends unobtrusively into living and working spaces with its modern, sleek design.

The **clear digital display** and **remote control** allow you to operate all functions from the comfort of your sofa or desk.

The BCAuraSilk is equipped with an **H13 HEPA filter** for cleaner air in everyday life. This filter removes fine particles such as dust, pollen and allergens from the air, contributing to a pleasantly hygienic indoor climate.

The BCAuraSilk combines **design, air circulation and air purification** in one device - for more comfort and well-being in your home or office.

Specifications:

- Input voltage: 220V-240V ~ 50Hz
- Power: 55 Watt
- DC motor
- Height 103cm
- 12 speed settings
- 12-hour timer
- Swivelling function
- Digital display & control panel
- Max. Air speed: 6.4m/s
- Noise level: 65 dB(A)
- H13 HEPA filter
- Robust ABS housing
- With remote control

Dimensions:

- Product (W×H×D): 253×1030×253 mm
- Packaging (W×H×D): 290×1072×285 mm
- Net and gross weight: 4.35 kg / 6.2 kg
