LED insect killer - connects directly to the power socket

Kill pesky insects without chemicals: thanks to the highly efficient UV-A fluorescent lamps to attract the insects and the high voltage, the insects are killed effectively and quickly.

The four built-in UV-A lamps last an average of 20,000 hours - you can therefore use the SHE-IVS071 for a very long time and do not need any chemical ingredients. Thanks to the low power consumption of 1 watt, there are also low costs for operation.
