

Properties

- Convector
- 2000 Watts
- Turbo fan
- Two heating stages
- Temperature control 15-35C

Security

- tested & certified
- Anti-tilt protection
- Overheat protection

- Powerful convector heater with integrated overheat protection for a comfortable climate in rooms without central heating or as an auxiliary Heater.
- infinitely variable thermostat controller for easy pre-selection of the desired temperature.
- The practical convector from SHE ensures pleasant warmth in your own four walls. In addition to the living room or the kitchen, you can also use the heating in garden houses, garage or winter gardens. Thanks to the automatic temperature control and high performance, the heat is distributed quickly and evenly in the room. The low-noise operation combined with optimal performance is impressive.

The convector is a practical flat heater for heating indoor air in enclosed and dry rooms without central heating or as an auxiliary heater. Thanks to the convenient adjustment options and the fan integrated in the housing, the heated air is evenly distributed in the room and the rooms to be heated are quickly at the desired temperature. For maximum safety, overheat protection is already integrated, which reliably protects the device from overload and automatically switches off if necessary.

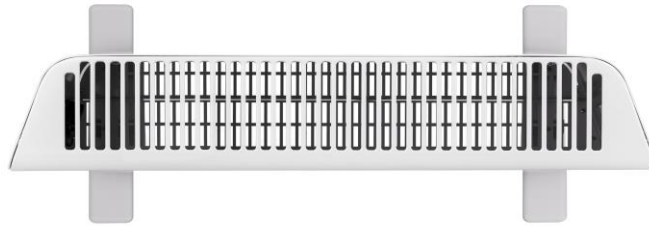

Security

Safety is a top priority at SHE. The convector is equipped with an overheat protection, in addition a thermal fuse and a tipping protection is installed. In this way, risks are prevented from the outset.

Technical data

The Convector from SHE provides pleasant warmth in the bathroom, conservatory or garage and creates a pleasant indoor climate. With the two power levels, the temperature control and the switchable turbo function, you determine where and how much heat is distributed in the room.

- Room thermostat with infinitely variable temperature control 15-35 C
- Ventilation function
- Overheat protection
- Thermal fuse
- Overturning protection
- 230 V AC input
- 2000 W Total power
- Two performance levels
- Consumption Level 1: 1250 W
- Consumption Level 2: 2000 W
- Controls: On/Off Switch
- Heating:2
- Fan levels: 2
- Colour: glossy-white
- Dimensions - (height x width x depth): 430 mm x 570 mm x 100 mm
- Weight: 2300g

Scope of Delivery & Warranty

Convector
