**BE COOL EAGLE - Elegant Design**

The combination of elegance, Performance and convenience understates the importance of this model in the powerful e-scooter middle class.

A well-taken driving experience and stable Design

The stable chassis is made of aluminum with high strength. The scooter offers a very comfortable riding experience and is designed for a payload of up to 120 kg. The EAGLE is a light weight and at the same time robust. It only takes a few seconds to fold in the scooter. This makes it easy to transport in the trunk.

The powerful and maintenance-free 350 watt hub motor accelerates to the maximum permissible speed of 25 km/h in the shortest possible time. The 10Ah/36 volt battery reaches a range of up to 35 km.

Safety is a top priority for BE COOL.

The built-in and robust high-end components convince every driver. The built-in suspension on the rear wheel is a special feature. This means that every trip is safe and all bumps are swallowed up immediately. The maintenance-free 10 inch honeycomb strips also ensure safety. When things get tight, the dual braking system provides support with an electronic engine brake on the front wheel and a highly efficient disc brake on the rear wheel.

Experience the new dimension of movement and enjoy every journey with the BE COOL EAGLE.

Honeycomb Tires

Honeycomb tires are maintenance-free. Thanks to its honeycomb structure, the special solid rubber tire absorbs vibrations and vibrations. Nails and shards can do nothing to the tire.

Dual brake system

The EAGLE has a disc brake on the rear wheel and an electronic engine brake on the front wheel.

This dual braking system increases safety many times over.

Guarantee

- 2 years, excluding wearing parts
- Battery: 6 months

Österreichische
Marke

bright display and headlights at any time of the day

the bright LED display gives information about the battery level and the speed.

You can control everything via 1-button control. Whether this is the speed level or the LED light.

Safety takes place

The BE COOL EAGLE has a suspension on the rear wheel. This provides maximum driving comfort and the 10" Honeycomb tires glide over some bumps. The scooter has a disc brake on the rear wheel and an electronic engine brake on the front wheel.

Technical data

- Engine power 350 watts
- Max. range 35 km*
- Battery type: 10.0 Ah, 36 V
- Watt hours: 360 Wh
- Rear disc brake, front electronic brake
- Rear shock absorber
- 2 speed levels
- 10.0 inch Honeycomb tires
- Max. speed: 25 km/h
- LED lights front and rear
- LED Display
- Bell
- Max. load capacity: 120 kg
- Charging time: 6 hours
- Gross dimensions - (H x W x D): 1.120 x 150 x 1.150 mm
- Gross weight: 16,5kg
- Colour: anthracite
- Internal article no.: BC10ES364006EE
- EAN: 9005151000177

* Test variables for the range: person: 70 Kg, weather: dry, 25 C° and windstill, continuous speed of 15 km/h, track condition: flat, smooth asphalt

Actual range depends on various factors such as load, temperature, wind speed, road conditions and driving style.
